

INCLINE AX

Released in 2017, Incline AX was the first wheat variety to be released as part of the CoAXium™ Wheat Production System. This system combines a patented herbicide-tolerance trait (AXigen™), elite germplasm, a new branded herbicide (Aggressor™), and a comprehensive industry leading stewardship program. Incline AX is tolerant to the Aggressor herbicide, a Group 1 herbicide labeled for use in wheat to control grassy weeds including Feral Rye, Downy Brome and Jointed Goatgrass. The placement of Incline AX should be targeted on hard to control weedy areas of the farm with either of the grassy weeds listed above. In trials Incline AX has demonstrated average yield performance with acceptable quality.

CHARACTERISTICS

MATURITY	Late
HEIGHT	Medium-short
YIELD	Fair
DROUGHT TOLERANCE	Good
MILLING QUALITY	Poor
BAKING QUALITY	Very good
STRAW STRENGTH	Very good
TEST WEIGHT	Poor
PROTEIN	Fair
COLEOPTILE LENGTH	Medium-long
PEDIGREE	(AF28/Byrd)(AF10/2*Byrd)

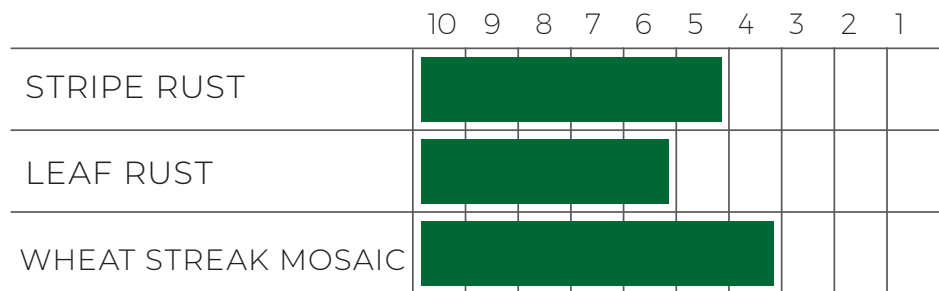

HARD RED

Management:

- Target fields with grassy weed pressure
- Tolerant to Aggressor™ herbicide, no cross-tolerance to Beyond herbicide
- Control feral rye, cheatgrass, downy brome, jointed goatgrass
- Manage leaf disease pressure with foliar fungicides

PEST & DISEASE PROFILE

Rating Scale:

Excellent (1-2) Very Good (3-4)
Good (5-6) Fair (7-8) Poor (9-10)
