

# INCLINE AX

## CHARACTERISTICS HARD RED WINTER

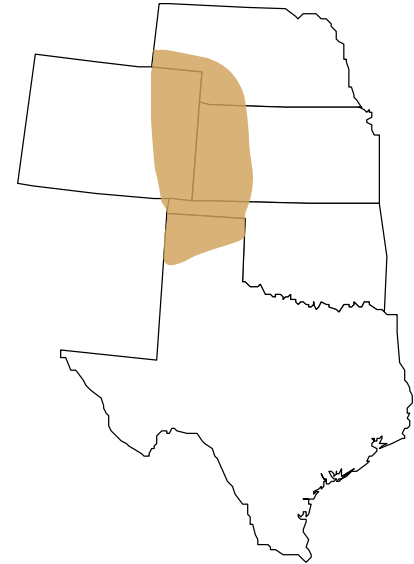

<b>MATURITY</b>	Late
<b>HEIGHT</b>	Medium-Short
<b>YIELD</b>	Fair
<b>DROUGHT TOLERANCE</b>	Good
<b>MILLING QUALITY</b>	Fair
<b>BAKING QUALITY</b>	Very Good
<b>STRAW STRENGTH</b>	Very Good
<b>TEST WEIGHT</b>	Poor
<b>PROTEIN</b>	Fair
<b>COLEOPTILE LENGTH</b>	Medium
<b>PEDIGREE</b>	(AF28/Byrd)//(AF10/2*Byrd)

## Variety Protection Status

**PVP** Unauthorized Propagation Prohibited - to Be Sold by Variety name Only As a Class of Certified Seed - U.S. Protected Variety - 1994 PVPA

## AREA OF ADAPTATION

## FEATURES & BENEFITS

Released in 2017, Incline AX will be one of the first widely available CoAXium® varieties for Fall of 2019, enabling growers to

utilize Aggressor® herbicide for control of feral rye, cheatgrass and jointed goatgrass. Incline AX is a late-heading variety with very good tolerance to Aggressor® herbicide applications, and very good straw strength and baking quality. For fields with heavy populations of feral rye and cheatgrass, Incline AX is a great choice for 2019. Certified Seed Only, no saved seed allowed, Stewardship Agreement required.

## CERTIFIED SEED ONLY

Incline AX is a Certified Seed Only variety. By purchasing seed, grower agrees to use seed of the variety only for the production of a commercial grain or forage crop. Using certified seed every season ensures the best stewardship, end use functionality, and opportunity to maximize yield potential of the variety. Resale of this seed, or supply of saved seed derived from this seed, to anyone including purchaser for planting is prohibited.

## STEWARDSHIP AGREEMENT REQUIRED

In addition to purchasing Certified Seed every year, farmers are required to sign, and adhere to, the CoAXium® Wheat Production System Grower Stewardship Agreement outlining best management practices on product rates, crop rotation, mechanical and cultural practices and CoAXium® and Aggressor® use guidelines in different cropping systems.
