

THUNDER CL

CHARACTERISTICS

HWW

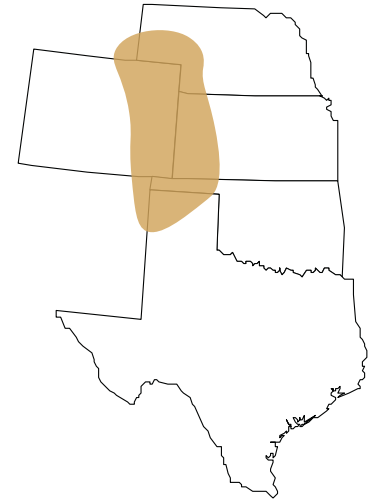

MATURITY	Medium-Early
HEIGHT	Medium-Short
YIELD	Good
DROUGHT TOLERANCE	Good
MILLING QUALITY	Good
BAKING QUALITY	Very Good
STRAW STRENGTH	Excellent
TEST WEIGHT	Good
PROTEIN	Fair
COLEOPTILE LENGTH	Medium
PEDIGREE	KS01-5539 / CO99W165

Variety Protection Status

PVP Unauthorized Propagation Prohibited - to Be Sold by Variety name Only As a Class of Certified Seed - U.S. Protected Variety - 1994 PVPA

AREA OF ADAPTATION

FEATURES & BENEFITS

Thunder CL is a single-gene Clearfield® hard white winter wheat variety that is tolerant to Beyond™ herbicide for broad-spectrum

weed control, including problematic winter annual grassy weeds. In addition, Thunder CL combines high yields, good stress tolerance, excellent straw strength, good test weights and superior milling and baking qualities. Thunder CL is also an excellent irrigated wheat variety that is eligible for the CWRF / Ardent Mills Ultragrain® Premium Program. Certified Seed Only, no saved seed allowed.

CERTIFIED SEED ONLY

Thunder CL is a Certified Seed Only variety. By purchasing seed, grower agrees to use seed of the variety only for the production of a commercial grain or forage crop. Using certified seed every season ensures the best stewardship, end use functionality, and opportunity to maximize yield potential of the variety. Resale of this seed, or supply of saved seed derived from this seed, to anyone including purchaser for planting is prohibited.

STEWARDSHIP AGREEMENT REQUIRED

In addition to purchasing certified seed every year, farmers are required to sign, and adhere to, the Clearfield® Wheat Stewardship Grower Agreement outlining best management practices on product rates for Beyond® herbicide, crop rotation, and cultural practices.
