FEATURES & BENEFITS

Released in 2018, Canvas is a Denali//Antero//Byrd cross providing strong dryland and leading high moisture performance in agronomics and

yield. Stripe and stem rust resistance is excellent with good resistance to WSMV & SBMV. Canvas maintains excellent test weight and makes protein very well. End-use quality is very good. Canvas stands well under high fertility and moisture, making it a good candidate for intensive management. PVP Protected; to be sold by variety name only as a class of certified seed.
