

BRECK

PEDIGREE ▶ DENALI / HV9W07-482W // ANTERO

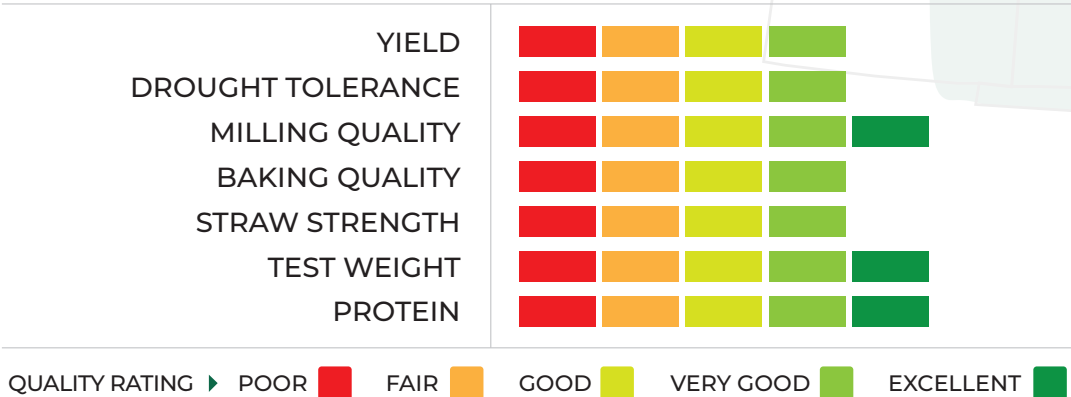

HARD WHITE

Released in 2017, Breck is an open market hard white variety included in the CWRP/Ardent Mills UltraGrain® Premium Program. Outside of contracting through Ardent Mills, Breck can be sold into other mills and markets. Breck has excellent test weight and lower polyphenol oxidase (PPO), providing opportunities in the Asian noodle market. Breck also offers very good yield, sprouting tolerance and very good resistance to stripe rust. PVP Protected, Certified Seed Only, no saved seed allowed.

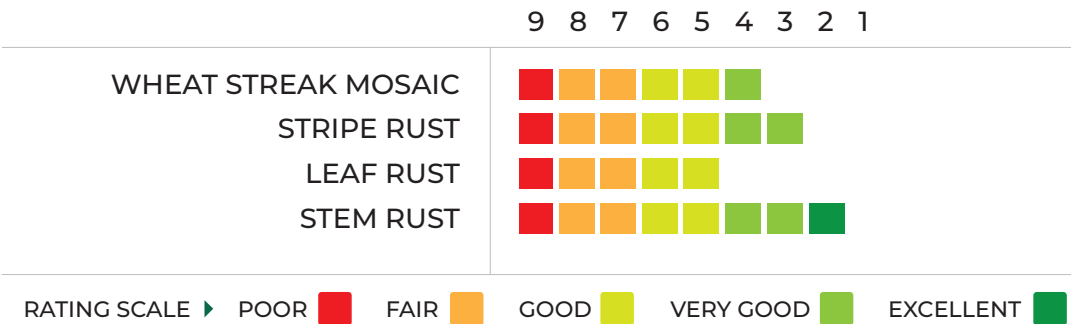

CHARACTERISTICS

MATURITY ▶ MEDIUM-EARLY
 HEIGHT ▶ MEDIUM
 COLEOPTILE LENGTH ▶ MEDIUM-LONG

PEST & DISEASE PROFILE

MANAGEMENT NOTES

- Premium pricing with protein scale available through Ardent Mills UltraGrain Contract
- Also available as a non-exclusive variety in grain trade
- Apply proper nutrients to achieve desirable quality targets
- Marginal tolerance where Soilborne Mosaic Virus is a concern
