

LANGIN

PEDIGREE ▶ CO050270 / BYRD

Released in 2016, Langin is currently the most planted variety in Colorado. Langin is an early maturing, medium-short variety with excellent yield potential and excellent baking quality. Stripe rust resistance and acid soil tolerance are very good, winterhardiness and SBMV are excellent. Langin has shown strong adaptation across the High Plains. Straw strength is marginal for high yield environments. PVP Protected; to be sold by variety name only as a class of certified seed.

MANAGEMENT NOTES

- Consider growth regulator in yield environments > 90 bushels
- Plant later due to early heading
- Good for acid soils
