

GUARDIAN

PEDIGREE ▶ ANTERO / SNOWMASS // BYRD

HARD RED

Released in 2019, Guardian is the first in its class to deliver superior resistance to wheat viruses, from stacking a gene for resistance to the Wheat Streak Mosaic Virus (Wsm-2) with a gene for resistance to the wheat curl mite which transmits WSMV, wheat mosaic virus, and Triticum mosaic virus. Guardian also carries leading resistance to all three predominant rusts (Stripe, Leaf, and Stem). This strong disease package, combined with very good yield potential, exceptional test weight, and strong ability to make grain protein provide the highest package of value in the market to maximize ROI year after year. Protect your wheat fields and pocketbook by investing in Guardian. PVP Protected, Certified Seed Only, Sunset June 30th, 2024 (savable harvest, 2024).
