

BRECK

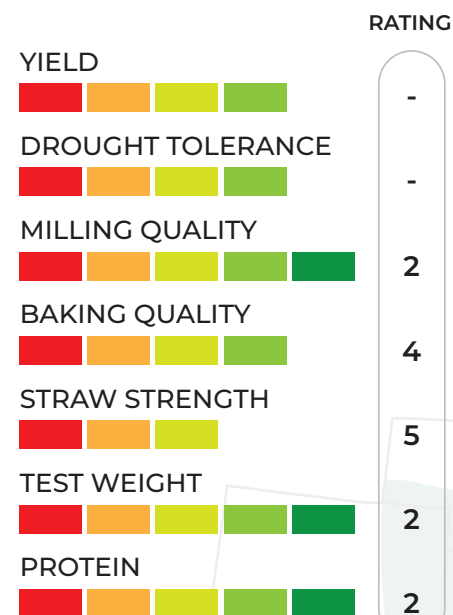

PEDIGREE ▶ DENALI / HV9W07-482W // ANTERO

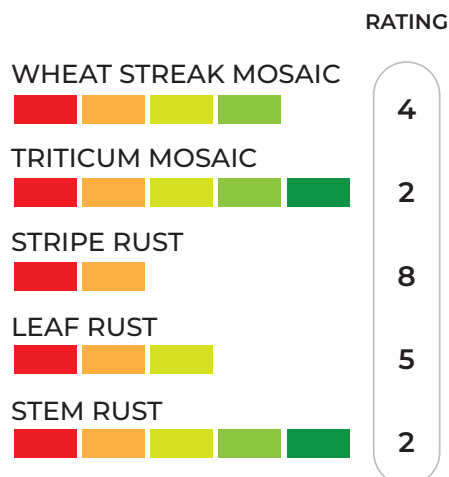

Released in 2017, Breck is an open market hard white variety included in the CWRP/Ardent Mills UltraGrain® Premium Program. Outside of contracting through Ardent Mills, Breck can be sold into other mills and markets. Breck has excellent test weight and lower polyphenol oxidase (PPO), providing opportunities in the Asian noodle market. Breck also offers very good yield, sprouting tolerance and very good resistance to stripe rust. **PVP protected, SINGLE SEASON USE, no saved seed allowed.**

CHARACTERISTICS

MATURITY **MEDIUM**
HEIGHT **MEDIUM**
COLEOPTILE LENGTH **MEDIUM-LONG**

PEST & DISEASE PROFILE

MANAGEMENT NOTES

- Premium pricing with protein scale available through Ardent Mills UltraGrain Contract. Proof of certified seed purchase required to contract.
- Also available as a non-exclusive variety in grain trade
- Apply proper nutrients to achieve desirable quality targets
