

TELLURIDE

PEDIGREE ▶ CO12D906 / CO07W722-F5

Released in 2024, Telluride is the newest Open-Market Hard White Winter Wheat that has led the pack in yield for the last few years. This variety shows excellent yield performance in dryland and irrigated settings, maximizing returns from seed investments through yield and premium offerings. Telluride is an approved variety contracted with Ardent Mills, as well as a good choice for grain brokered elsewhere. Telluride has very good straw strength, excellent protein performance, medium early maturity, with an average plant height. **PVP Protected, SINGLE SEASON USE. No saved seed allowed.**
